PRICE FIVE CENTS

CANANEA THE OBJECT OF OBREGON ATTACK

Forces of Carranza Leader Now
Reported at Del Rio; Out-
posts Engage Those of Rodri-
guez at Dry Farm.

BATTLE FOR HERMOSILLO BEING FOUGHT IN SOUTH

Reported Defeat of Calles Denied
on Border; Obregon May Be
Delaying Movement Until Ar-
rival of More Troops.

NAGU, Nov. 19.—(Special to the Review.)—With Obregon and his combined forces of Calles and Carranza at Del Rio and with several of his outposts reported to be engaged with those of General Rodriguez at the Dry Farm it is thought that the engagement for the occupation of Cananea is imminent.

The report in circulation, yesterday, to the effect that the Carranza forces were defeated at Sagredo and Del Rio is denied here. Accurate details are not to be had from the interior.

BATTLE FOR HERMOSILLO

NOGALES, Nov. 19.—The battle for the possession of Hermosillo, the capital of Sonora, has been on since late yesterday. It is claimed that Obregon was repulsed near Cananea. Villa is personally directing the attack on the Hermosillo garrison under Diaz.

A proclamation, attributed to Villa and posted by Governor Randall here, denounces Carranza and Wilson as an "evangelical professor of philosophy." It declares Mexico will not accept a government forced upon them by the United States.

An elderly woman was shot during a celebration in Nogales, Sonora, last night when shouts of "Viva Carranza" were heard.

OBREGON MANEUVERING

DOUGLAS, Nov. 19.—The Carranza forces are completing the movement to surround Cananea, the Obregon report. It is believed Obregon is maneuvering until the arrival of four thousand reinforcements from Toluca via Eagle Pass in bond through the United States. General Acosta's four hundred Yaquis are reported to have penetrated Obregon's lines near Samedia, reinforcing General Rodriguez' command in holding Cananea.

CARRANZA DELAYED

LAREDO, Nov. 19.—The necessity of taking side trips owing to the demands of the Mexican populace to see him, delayed the arrival of Carranza on the border. He is expected tomorrow.

The trip to Cuadela prevented Carranza reaching Nuevo Laredo as expected. He left Monterrey early this morning. It is reported he is spending the night at Tampas.

CARRANZA CONTROL PARRAL

EL PASO, Nov. 19.—It is reported the Carranza forces of General Herrera are in control at Parral and Santa Barbara.

SMUGGLERS INDICTED

LOS ANGELES, Nov. 19.—The federal investigation of the alleged smuggling of opium into Southern California from Mexico resulted in the indictment of five, recently arrested at San Diego. The indictment charges conspiracy to smuggle contraband.

Jesus Garcia, Marcel Garcia, Rosendo Lugo, Eduardo Gomez and Alvaro Vazquez were indicted. It is reported the case of Frank Moogholder recently arrested at San Diego on the charge of smuggling opium was continued until next week.

EXECUTIVE BOARD TO MEET

DENVER, Nov. 19.—The executive board of the Western Federation of Miners failed to meet for the purpose of considering the strike situation in Arizona, owing to the late arrival of some of the members. It may meet tomorrow. Ernest Mills, secretary, stated there was nothing to announce regarding the strike.

GERMAN SOLDIERS NOW USING INDIVIDUAL SEARCHLIGHTS

Five German soldiers and their individual searchlight.

More and more as the war progresses it is evidenced that the most modern appliances which the inventive genius of the Kaiser's forces can devise are being used to good purpose in the German lines, both in the trenches and on the battle front. The photo shows one of the most modern of the inventions—a portable searchlight. This searchlight, small as it is, is a remarkably powerful one. When not in use it is taken apart and distributed among five men of the company.

SERBIAN ARMY ABOUT IN LAST STRONGHOLD

Predicament of Serbian Army Is
Terrible; Greece's Intentions
Yet a Matter of Conjecture in
Allied Countries.

LONDON, Nov. 19.—The position of the Serbian army and the attitude of Greece toward the Entente remain the outstanding questions of interest in Europe. Information on both situations is meagre. The public is unable to judge what changes, if any, have occurred. The Tzoumas on the north are now within thirty miles of the Mitrovica-Prishtina line of the Serbians. The Bulgarians, in the south, are reported to have passed Monastir. There are lively artillery engagements in Alsace and other points in the west. The Germans claim the Petrograd situation is unchanged. Petrograd claims to have repulsed the Germans on the Dvina and Styr rivers.

It is thought possible the Serbians will make a stand on the historic plain of Kosovo, east of the Montenegrin frontier, where over 500 years ago the Serbians lost their independence to Turkey.

The Serbians must either retire into the mountains of Montenegro or north into Albania, where, although they will be nearer help from the Adriatic, it will be difficult to keep them supplied owing to the absence of roads.

There are no developments regarding the position of Greece. A more hopeful feeling prevails in Paris and London since Denys and Cochin's visit to King Constantine and the Greek ministers. The Italians are still hammering the Austrian position on the Isonzo and while gaining a little they have not succeeded in capturing Gorizia, which has been under shell fire for several days.

ALLEGED AMERICAN SPY NOW RELEASED

Former Princeton Student, Mentally Unbalanced, Given Freedom By England.

LONDON, Nov. 19.—Kenneth Triest, the former Princeton student held as a German spy, was released by the British. He leaves tomorrow for the United States with his father, who recently went to London for the purpose of securing his son's release. Previously his father visited the state department at Washington and presented evidence tending to prove his son was mentally unbalanced. Triest enlisted last January as a wireless operator in the British navy. In writing an uncle in Germany, Triest, it is charged, promised to deliver to Berlin valuable secrets which he claimed to have learned. The interception of this letter resulted in his arrest and confinement in the Tower of London.

GOES OVER MESSAGE

WASHINGTON, Nov. 19.—Wilson went over the draft of his message to Congress in the cabinet. He hopes to complete the message next week.

REVIEW'S 1915 MINING EDITION

Tomorrow the Review will issue its 1915 Mining Edition. It will be replete with timely data concerning the resources of Arizona. In point of scope it will surpass any newspaper edition ever issued in the State. As in the past the Review takes the commanding lead in all matters which make for a greater Arizona and the 1915 Mining Edition will be awaited with more than usual interest by every newspaper reader throughout the entire Southwest.

If you want to play a vital part in the upbuilding of this vast Western empire, make liberal purchases of the Mining Edition and send them East to your friends and relatives.

GOVERNOR SPRY WANTS AFFIANT ARRESTED

Man Who Made Affidavit Sought By Governor of Utah; Hillstrom Had Record in Southern California.

SEATTLE, Nov. 19.—Governor Spry telegraphed the chief of police asking that the story of William Busky be investigated. Busky signed an affidavit that he was with Hillstrom from 2 to 10 p. m. of the day the Murphys were killed. The affidavit failed to effect a delay in the execution. Hillstrom was shot this morning.

"If Busky was with Hillstrom, hold him as the State of Utah desires to prosecute," was the governor's wire. The police are searching for Busky.

"Also investigate Thomas Whitehead, who vouches for the affidavit, and joins in the threatening communication," the governor's wire concluded. Whitehead is the I. W. W. secretary and an old resident.

LOS ANGELES RECORD

LOS ANGELES, Nov. 19.—During the incarceration of Joseph Hillstrom who was executed at Salt Lake City, here in 1912, immigration officers learned he had previously joined the army of General Price, a British soldier of fortune, operating in Lower California and participated in two battles.

Hillstrom was suspected of implication in a street car hold-up but was released after two weeks in jail because of a lack of evidence. Immigration officers here recommended the deportation of Hillstrom. The Washington department never acted upon the recommendation. Hillstrom is said to have gone to Salt Lake a few weeks after his release.

SPRY DETERMINED

SALT LAKE CITY, Nov. 19.—Following the execution today Governor Spry announced he would clear the state of the lawless element "now or never." Every lawbreaker, every man who defies law and order, or who opposes the law and order will be driven out.

Spry added: "I am going to see the work is immediately started. If the city officers or others whose duty it is, fail, I will do it myself. I intend to stop inflammatory street speaking immediately."

He said he didn't believe it would be necessary to use the state militia, but it would be used to clear the state of men who had been writing threatening letters and making incendiary speeches, if necessary.

JAVA SERVICE STARTS

SAN FRANCISCO, Nov. 19.—The newly formed Java-Pacific Line announced its vessels will begin a monthly steamer service on December 15, between Java, the Philippines, China and San Francisco.

DARING VILLAIN KILLED

SANTA BARBARA, Nov. 19.—Leslie Reed, twenty-six, cast as a villain in a motion picture play, was killed on leaving from a coach on a mountain road. He miscalculated the distance.

HARVARD IS FAVORITE

CAMBRIDGE, Mass., Nov. 20.—Harvard is a five to four favorite to beat Yale tomorrow. Unusual interest is displayed in the outcome of Saturday's Dartmouth-Syracuse, Colgate-Georgetown, Trinity-Wesleyan and Army-Navy games.

FORMER MAYOR DIES

SANTA BARBARA, Nov. 19.—George M. Scott, the first centennial mayor of Salt Lake City, died at San Mateo.

COMPLETE IS FIRE DESTROYS SOUTH SIDE AGREEMENT BETWEEN BUREAUS OF LOWELL'S MAIN STREET IN RECORD TIME; \$60,000

Secretary Gregory of Department of Justice and McAdoo of Treasury Portfolio Issue Statement Defining Positions.

JUSTICE WILL HAVE CHARGE OF WAR PLOTS

Both Men Claim There Has Been
no Disagreement Between De-
partments and That Neutral-
ity Matters Receive Attention.

WASHINGTON, Nov. 19.—In an authorized statement, Attorney General Gregory and Secretary McAdoo, regarding the policy of the Department of Justice and the Treasury Department, in connection with the investigation of the alleged criminal activities in the United States connected with the European war, it is indicated that the bureau of investigation of the Department of Justice will handle this work in the future.

The statement of McAdoo and Gregory follows: "In view of the widespread statement to the effect that the Secret Service of the Treasury Department has been placed in charge of the investigation of bomb plots, ship burnings, munition factory explosions and kindred matters, and the determination of whether the criminal statutes of the United States have been violated, we authorize the following: That different departments of the federal government have been instructed to furnish and are furnishing each other with all information which can assist each department in performing the duties devolving upon it. There is no disagreement between the departments regarding their respective spheres. None are anticipated. "With the exception of crimes relating to counterfeiting and pay bounty laws, the Bureau of Investigation of the Department of Justice is charged with the duty of investigating information indicating violations of the criminal statutes of the United States, including conspiracies in violation of the federal criminal statutes and violations of interstate commerce statutes and passport frauds.

"The instructions of the Treasury Secret Service are in deliver to the Bureau of Investigation of the Department of Justice any data developed by the former which will assist the latter in conducting such investigations."

The Secret Service began investigating the alleged plots involving the United States neutrality shortly after the beginning of the war. It is known here that it has collected a mass of information relating to activities of many kinds. Scores of reports have been made to McAdoo. Some of them are said to have gone to the President.

WORLD SUPREME COURT PROPOSED AT DINNER

Plans Made for Establishment of
Tribunal to Settle Interna-
tional Disputes

NEW YORK, Nov. 19.—The first steps in the campaign for the creation of a world supreme court for the judicial settlement of international disputes was taken at a luncheon at which prominent people from all sections of the United States attended. It resulted in the formation of the world court league of America.

A board of governors was elected. These latter will elect the officers and perfect the organization. Plans for the establishment of such a court were discussed in Cleveland last May.

Doctor John Wesley Hill, president of the luncheon, explained it was not the object of the league to take a hand in bringing about peace in the present war or interfere with the armament plans of the United States. He proposed the organization of a court, consisting of representatives of each country in the world, which would prevent the outbreak of a similar war in the future.

BULGARS OCCUPY MONASTIR

LONDON, Nov. 19.—A Rome dispatch says the Bulgarians have occupied Monastir. The Serbians are in full retreat.

CLOSELY ESTIMATED LOSSES

Less Than Two Hours Required to Devastate Practically Entire Side of Street; P. D. Store Saved From Flames.

FIRE STARTS IN THE LOWELL THEATRE BUILDING

Terrific Heat Causes Considerable Damage to North Side of Street, and Threatens, for Time, Destruction of Town.

Fire originating in the Lowell theatre, on the south side of the Main street of the town of Lowell, yesterday morning, swept away in the neighborhood of \$60,000 worth of property in about two hours.

About 9 o'clock yesterday morning, the proprietor of the candy store located in the same building as the Lowell Theatre, heard a report from the rear. He described it as resembling a muffled explosion. When the front doors of the theatre were broken down and entered the entire first floor of the house was on fire.

There was secured at the earliest possible moment but the fire had gained too much headway and in a very short time had spread to all of the adjoining buildings. But for the judicious use of dynamite it is probable that the east end of the street would have been swept. Only the favorable direction of the wind saved the north side of the street from destruction as it was blowing in a southeasterly direction.

Yesterday's fire is the most disastrous since the fire of April, 1914, when a large part of Johnson Addition was swept away. The loss, in the present blaze, though not quite so large in the amount of money, places a number of businesses at a distinct disadvantage. On the other hand but few families were rendered homeless yesterday, whereas in the last fire hundreds of people lived in tents for several months or until new dwellings could be erected.

The origin of the fire is a mystery. According to the constabulary store proprietor the fire originated, judging from the sound of the explosion, in the boiler. W. D. Evans, of the Progressive Amusement Co., which owned the Lowell Theatre, stated last evening that the fire must have come from defective wiring. The heating plant for the theatre was located in the cellar side of the building and is the only other possible source.

The damage was not restricted to those buildings swept away. The other side of the street resembles a chair which has been exposed to the close heat of an open fireplace for some time. Within the range of the heat, which extends from the Bonanza building to the Brophy stables, there is not a window intact. Besides the property owners on the north side of the street, the Mountain States Telephone and Telegraph Company and the Bisbee Improvement Company are heavy losers.

Last night the electric light and phone connections had not been made but both companies were working at terrific speed to give the people of Lowell the best service possible at the earliest moment.

The loss to those on the other side of the street is hard to estimate. Plate glass windows, stocks in windows, painted paint and curtains, in the aggregate amount to a considerable sum.

When it was found that the fire was likely to eat the whole side of the street and might even pass over the pavement to the north side of the thoroughfare, it was deemed expedient to dynamite some of the buildings in the path of the blaze. Accordingly, the structure occupied by Judge George R. Smith was subjected to the explosive and when the debris was torn away the life was successfully stopped.

Fire walls and a substantial division wall of the Lowell branch of the Phelps Dodge Mercantile Company, saved that institution from a large loss. As it was the only loss was from several windows in the rear of the building, which is small.

The fire yesterday brought to the minds of Lowell residents the need of a fire department. After the fire of April, 1914, the Lowell Fire Department was organized. The fire district voted no bonds to purchase equipment but in some manner the action was declared illegal and the equipment has never been paid for and has remained (Continued on page 8)

HUNT'S JOB HAS NO APPEAL FOR OSBORN

Secretary of State Announces
He Will Be Candidate to Succeed
Himself; Mit Sims' Hat
Probably in the Ring.

PHOENIX, Nov. 19.—Settling at rest the rumor that he would be in the race next year for the nomination for governor, Sidney P. Osborn, secretary of state, today announced that he would be a candidate for the nomination for the same office in 1916.

While there have been many reports of candidates for places on the democratic ticket next year, Osborn's announcement is the first definite statement of intention on the part of any of the state officials. Mit Sims, state treasurer, who cannot be a candidate to succeed himself, has not hesitated to tell his friends of his aspirations toward the office of secretary of state, and it is said that there are several other prospective candidates for the nomination.

The fact that Osborn, who is one of the most popular democrats in the state has decided not to heed the requests of his many friends and allow his name to be used in the gubernatorial nomination contest, is taken to indicate that Gov. Hunt will again be a candidate to succeed himself.

SCHMIDT DEFENSE WINS TRIAL POINT

Hotel Clerk of Clinton, Iowa,
Identified McManigle as Man
Registering There in 1908

LOS ANGELES, Nov. 19.—Attorneys for Schmidt, charged with murder in connection with the Times explosion, blocked the efforts of the prosecution to have witnesses identify the photographs of the McNamara brothers, arch conspirators, who are serving terms in San Quentin. The defense contended the photographs were secondary evidence. The court did not rule on the objections.

C. H. Ringson, a hotel clerk at Clinton, Iowa, identified Orrie McManigle, the prosecution's star witness, as the man who registered at his hotel in February, 1908, under the name of W. R. Grovie.

Ringson said he appeared at the hotel previous to the day of the explosion and wreck of the car derrick there. It developed that McManigle and his wife were roommates. She became estranged when McManigle turned state's evidence in the McNamara case. They are residing in Los Angeles and have two children attending school.

The court's decision, barring evidence of events transpiring after the Times explosion, will probably delay McManigle's appearance as a witness for at least a week.

GERMANS IN RUMANIA

BUCHAREST, Nov. 19.—The newspaper Epoca asserts that Austrian and German troops have landed in Rumania, on the island of Huraia in the Danube river. They are placed mines and watching the movements of the Rumanian troops.
